

Sustainability Policy Statement

Sustainability & Innovation

It is becoming increasingly important to protect our environment and Rentokil Initial UK is committed to ensuring that we do everything we can to reduce the impact of our business in every area which may affect the environment.

Production & Supply Chain

95% of our Pest Control products are manufactured in the UK - cutting out emissions that would have been released during transportation. Rentokil Initial UK is working closely with all suppliers to find innovative ways of reducing waste and sourcing the most environmentally friendly products.

Delivery

We will plan the routes of our service drivers to reduce fuel consumption and cut down the emissions (telematics investment. All our new urban service vans meet Euro 5 certification and we are actively reviewing feasibility of EV electric vehicles.

Processing

We have reduced our own water and electricity consumption by upgrading our facilities, including investing in high-tech ecological facilities.

Recycling

At the end of our product's lives, we ensure that as much material as possible is recycled by our external waste disposal providers and diverted from landfill.

Products

We will endeavor to source then launch products and services that will help our customers reduce their environmental impact

Carbon Footprint

Rentokil Initial has partnered with Cool Earth, the climate change charity, to support its Wabumari partnership in Papua New Guinea – protecting around 1,000 acres of rainforest and so preventing the release of at least 228,000 tonnes of CO2 emissions, equivalent to the Company's entire carbon footprint. By supporting the people of Wabumari, Rentokil Initial will transform the prospects of the community and halt deforestation.

Rentokil Initial engages with the Carbon Disclosure Project and is a member of the Dow Jones Sustainability (European Leaders) Index.

Rentokil Initial is committed to deliver net zero carbon emissions by the end of 2040 and further detail and our plan can be found on public website: <https://www.rentokil-initial.com/responsible-delivery>

Reducing our carbon footprint involves the whole business, including our suppliers and customers. By working together with our customers, colleagues and suppliers we believe that Rentokil Initial UK can have a significant, positive, long-term impact on the environment.
