

Rentokil

RODENT CONTROL.
REVOLUTIONISED.

ELIMINAIR

CERTIFICATE Declaration OF TRAP TESTING - WELFARE IMPACT

Eliminair has been independently evaluated and tested in accordance with the defined test protocol and the applicable requirements set out in the most stringent guidelines in the presence of an independent veterinarian.

Testing was conducted in adherence to the methodological framework outlined in the “NoCheRo - Guidance for the Evaluation of Rodent Traps Part A Break back/Snap traps” by Schlötelburg et al., 2021 and guidelines of the Swedish environmental agency (ISSN 1403 - 8234).

The test report confirms that Eliminair **meets the criteria for the highest animal welfare classification (Category A)** under the two scientifically recognised guidelines cited above and achieves a 100% dispatch rate within 15 seconds.

Rentokil Initial

Report Reference Number: 2606REN-RNO-LAB01-JACK – Rentokil. Testing carried out from 17th June to 19th June 2026
French government authorisation : APAFIS #55262 - 202502211849375 v4 - 28/05/2025
