

Mini Fly Box

The Problem

A fly infestation can quickly affect your business and can cause a range of issues, including:

- The spread of disease may mean increased staff absence and loss of productivity
- Contaminated products which can contribute to a loss of earnings, reputation and future business
- An infestation can also result in prosecution or failed audits

The Rentokil Solution

An external fly control unit for waste compactors, commercial and residential bins, the Mini Fly Box is a solution that can help to eradicate flies from your business.

Rentokil Fly Riddance & Mini Fly Box

Rentokil offer complete and cost effective solutions that are ideal for any businesses which have an issue with flies around a bin area.
