

## PestConnect

PestConnect provides transport company Chris Hayter Transport Ltd with 24/7 protection and monitoring against rodent pests, helping them to achieve 100% in their most recent AIB audit.

**Rentokil**  
The Experts in Pest Control

## Customer Need

Chris Hayter Transport Ltd stores and distributes goods for businesses across the UK, including storing food goods for national fast food retailers. Due to this, they are annually audited by the AIB, so they needed a pest control solution that provided enhanced monitoring while supporting their stringent audit requirements.

Due to the nature of their business, a non-toxic but effective approach was required in order to reduce the risk of potential product contamination, so Rentokil's PestConnect system was installed.

## The Rentokil Solution

Providing maximum protection with minimum disruption, PestConnect was installed to cover key areas within their premises. Non-toxic RADAR connect units were installed internally which provided them with a humane yet effective mouse monitoring and control solution.

PestConnect provides Chris Hayter Transport Ltd with 24/7 monitoring, rapid response and minimises the risk of mice causing issues on their premises. Also by having access to myRentokil, their auditing requirements are further supported by being able to access real-time information and reporting.

## Customer Benefit

PestConnect gives Chris Hayter Transport Ltd the confidence that their sites are fully protected against rodent pests, and that their auditing requirements are met. Having PestConnect installed has helped them to achieve 100% in the pest control element of their most recent AIB audit, providing them with further peace of mind that their sites are protected.

“.....  
*PestConnect makes this part of my role so much easier. I am now able to hand our pest control report to the auditor, with full confidence that it is accurate and up to date.*
