

# Lumnia

Lighting the way  
in fly control

Uses as little as 13W  
of energy when in  
low energy mode.

**Rentokil**

# Protecting your customers, environment and reputation.

By prioritising your approach to fly control, you can avoid the risk of:

- ▶ Food contamination
- ▶ Disease transmission
- ▶ Damage to your reputation

Optimised for attraction and catch rate with a versatile modern design, Lumnia offers a truly effective solution to monitor and control flying insects.

Protecting your business and the welfare of your customers and employees.

**Lumnia provides average energy savings of up to 79%\* compared to competitor fly killers.**

Developed with proven innovative LED technology, each unit is designed to attract, kill and encapsulate insect pests hygienically, eliminating the risk of contamination.

Units feature purpose-built modes to monitor and control the surrounding environment, meeting requirements for effective fly control.

Lumnia units are proven to be best-in-class in efficacy and performance with half-life metrics tested against traditional competitor units.

## Why Rentokil?

Rentokil is the global leader in pest control, bringing expert, reliable and professional service to commercial and residential customers in over 60 countries worldwide.
