The Eden Project

MEASURE

28.4 tCO<sub>2</sub>e carbon emissions per hour of operation for total units sold in 2018 & 2019

62%\* carbon reduction

Models assessed:

- Lumnia Compact
- Lumnia Standard
- Lumnia Ultimate

Comparison models:

- Luminos L3
- Luminos L3 plus
- L1 pro
- Luminos 4

Reporting Boundary: UK sales volume  
Emission sources: Electricity usage  
Reporting Period: 2018\* and 2019

\*Comparison based on normalised data

ENGAGE

We engage our employees and wider stakeholders to unlock their talent and knowledge to drive year on year progress in sustainability

COMMUNICATE

We recognise that transparent communication is essential for transformational change.
