

Rentokil

PestConnect

T-Rex

Hardware that hits hard.
Experts who know why.

PestConnect: now with added bite

Don't wait until your next service visit for peace of mind. Rentokil's PestConnect system offers **24/7 protection**, and can resolve rodent activity **twice as fast** by alerting experts the moment it's detected.* We've enhanced our award-winning network by adding **T-Rex** — a connected rat trap that combines digital intelligence with superior clamping power. It's pest control that hits harder and protects your site more effectively than ever before.

How T-Rex elevates your defence

49%** clamping power:

Interlocking teeth offer secure containment for no escaped pests and no near misses that leave your site vulnerable

Maximum efficiency, minimum disruption:

Provides years of reliable protection in any environment with a 5+ year battery life and IP67 rating against dust and water

*Based on a comparison of rodent activity duration at customer sites transitioning from non-connected to connected pest control. All data on file.

24/7 protection:

Real-time alerts mean our experts can jump into action quicker, significantly reducing the time pests are active on your site

Industry-leading IoT ecosystem:

Seamlessly integrated with PestConnect and our customer portal, myRentokil, offering a complete digital-first defence system and pest insights at your fingertips

**Based on third-party mechanical testing of average static clamping force on six snap traps

Stop waiting for your next service visit for peace of mind. Speak to an expert today.
