The Experts in Pest Control

## A Reputation Protection Programme

## Environmental

Delivering a 'net zero' service footprint

- ✓ We are a Carbon 'Net Zero' company, through our partnership with CoolEarth
- ✓ Protected c. **900** acres of rainforest in Papua New Guinea in 2018 with the same planned for 2019 and 2020
- ✓ Market-leading environmental initiatives
- ✓ Unique energy-saving products, including Lumnia
- ✓ Non-toxic Radar & RadarConnect traps
- ✓ Dow Jones Sustainability Index members
- ✓ FTSE4GOOD Member

MEMBER OF  
**Dow Jones Sustainability Indices**  
In Collaboration with RobecoSAM

### 'World Class' Health & Safety Record

- ✓ In 2018 and 2019 we won the ROSPA Gold Award from the Royal Society for the Prevention of Accidents

### Lumnia

- ✓ Lumnia units are up to **61%** more efficient
- ✓ Lamps last up to **five x** longer, change every **three** years
- ✓ **Low cost** and effective fly control unit range

### LTA

Our Lost Time Accident Rate (0.63 in 2018) has remained below **1.0** since 2014

## Legislation

CRRU (Campaign for the Reduction in Rodenticide Use)

### RADARConnect

- ✓ Remote pest monitoring and protection against mice
- ✓ Continuous 24/7, 365 days protection and monitoring
- ✓ Immediate control to reduce the impact of mice to your business
- ✓ Mice are quickly contained to reduce the risk of contamination

### Dual Autogate

- ✓ Remote pest monitoring and protection against rats and mice
- ✓ Multi rodent detection that counts number of pest activations to demonstrate minimised risk levels
- ✓ Reduced risk of (toxic) bait exposure - controlled baiting methodology in line with local legislation

Rentokil can reduce the use of rodenticides using unique and innovative technologies (PestConnect) which allow us to comply with these regulations whilst maintaining a highly effective pest control programme.

## Technology

Digital Pest Management

### Connected Technology

- ✓ Quicker and more effective control of pests
- ✓ Reduced disruption to site activities
- ✓ CRRU compliant, non-toxic, pesticide free and humane
- ✓ 24/7 monitoring and control

Harnessing the latest in technological breakthroughs and innovation, Rentokil is at the forefront of digital pest management; delivering solutions to help you proactively manage and prevent pest infestations, with a new level of efficiency, visibility and control.
